	EFFECTIVE DATE: 11/10/97	REVISED: 02/17/15
TITLE: News Media Access to Institutions		

AUTHORITY:

Policy *CD-012400*

PROCEDURES: [2-CO-1A-27] [2-CO-1A-27-1] [4-4021]

A. Requests for Access:

1. All news media requests for access will be made through the Public Affairs Director. Interviews and/or visits to the facilities will be approved in writing. Media will need to provide the length of time requested, the areas to be visited, the time and date, and the activities to be reported and photographed. Requests should be made at least 10 days in advance of visits. A staff member and/or the Public Affairs Director will escort news media at all times, when on the premises.
2. The Public Affairs Director will obtain clearance for the news media visitor(s) from the facility warden and will coordinate the media visit with that person. The Public Affairs Director will coordinate the recording of any interview by departmental staff with departmental equipment, as deemed necessary.
3. Media representatives who request interviews with specific inmates will be required to fill out the **Media Inmate Request** form. In cases where an inmate has a criminal appeal pending and the interview will cover any aspect of the criminal case, the media will also provide written approval from the inmate's attorney.
4. No release form is required of employees who are given authority by the facility warden to speak to the news media.
5. Members of the news media entering facilities will be required to sign a **Release and Waiver** form (*CD-012602.2*) that will be kept on file at the facility.

B. Invitations to the Media:

1. Each facility should work with the Public Affairs Director to invite regional or local news media to tour the facility or cover a special event in accordance with *CD-012402*. The Public Affairs Director will invite press coverage of special events such as graduations, new programs, work programs, special projects, etc.

2. The news media should be given notice at least five days in advance of tours or special events. News media representatives should be told to respond to the facility before the event, giving the name(s) of the reporter(s) who will attend and describing the equipment which will be in their possession, for example: camera, recording equipment, or sketching equipment. The Department is the final authority for granting clearance to the premises.
3. Facilities are required to participate in the Department's public information initiative as directed by *CD-012401*.

C. Inmate Contact with Media: [2-CO-3C-01]

1. News media may be permitted brief contact with inmates during tours of the facility on a random basis. Interviews should be brief to ensure that the tour and facility operations are not interrupted.
2. Requests to interview specific inmates who may have been identified by the news media before access was granted will not be honored unless written permission was previously granted.
3. The facility may authorize a pool of inmates selected by the facility to speak with news media after a tour. The facility may authorize inmates, encountered at random, to speak briefly with the news media during tours or special events.
4. The facility will not prohibit or discourage inmates and news media from exchanging information or answering questions after an inmate interview request form has been filled out and approved:
 - a. Through official mail channels;
 - b. Through telephone contact initiated by the inmate; and
 - c. Through visiting room procedures if the news media member is an official visitor and the interview process will not interfere with the visiting rights of other inmates or the orderly operation of the facility.
5. Inmates conducting interviews with the media will be required to sign the department release form, **Inmate Interview Request** (attachment *CD-012402.A*) which then is saved in the Public Affairs Director's files.

D. Staff Escort:

1. Whenever news media are on the grounds of a facility, they will be accompanied by the Public Affairs Director or by a person designated by the warden.

2. The escort person will ensure that any audio or video or still camera work is done in an observable manner. In over-all crowd situations, where practical, the inmates should be given the opportunity to step out of the picture, if they so desire.

E. Areas to be visited:

In general, the news media may be given reasonable access to all areas of the facility. This may preclude visiting any areas where such a visit would interfere with security operations.

F. Cooperation:

The facility will attempt to accommodate short-notice news media timetables and requests for access for specific stories other than specific inmate(s) interviews. A cooperative approach rather than an adversarial stance is desirable. Time restrictions, staff limitations and reasonableness will mean that not every media request will be honored to the letter of the request. Reasons should be explained to the news media when this is the case.

G. Discretion:

The facility warden and Public Affairs Director may determine that the news media's goals and the Department's goals may best be met by providing multi-press access times for specific stories, and not by trying to accommodate each individual request for access. This should not be done in a way that hampers the news media's access to the facility in general.

H. Denial of Access:

Access to the facility may be denied when emergency situations have been declared to exist; when the presence of the news media could clearly be disruptive or intrusive in the facility's operation; or when a particular news representative desires such frequent access that orderly operations are impeded. Access will be reviewed on a case by case basis and the Department reserves the right to deny access.

I. Unusual Requests:

Unusual requests, where continuous or numerous visits are requested, may be denied. Unusual requests including those posing an extra financial burden on the Department, such as the filming part of a movie within a facility, may be granted if the requestor agrees to pay for the extra costs to the Department associated with the access.
