**AUTHORITY:**

Policy *CD-050800*

**PROCEDURES: [4-APPFS-2A-03]**

**A. Probationers:**

Probation and Parole Officers shall recommend an Intensive Supervision Program for those individuals who would have otherwise been recommended for incarceration in a correctional facility. This recommendation will be made in the Pre-Sentence Report or Violation Report to the sentencing authority. Offenders who are deemed to be unable to function safely in the community even under intensive supervision shall not be recommended for the program.

**B. Parolees:**

Probation and Parole Officers may recommend those inmates who are considered high-risk which may include gang membership, habitual offender, violent tendencies, and/or any other history that may pose a potential risk to the community even if in the intensive supervision program. The Intensive Supervision Program is not always a feasible alternative for a hard-to-place inmate or an inmate who lacks placement for parole purposes. However, the program may be an option for parolees whose parole the Adult Parole Board would otherwise revoke and the Probation/Parole Officer believes the parolees can function safely in the community under intensive supervision.

**C.** The potential participation in intensive supervision must have been ordered as a special condition of probation or parole or as made part of an additional/amended condition of supervision. Probation and Parole Officers may recommend to the Court or Adult Parole Board that offenders who are in danger of violation or have violated conditions under lower levels of supervision be placed in intensive supervision as an intermediate sanction before incarceration. Referral/Recommendation will be made by Probation and Parole Officers at the time of sentencing for probationers or probation violators, at the time of the parole plan investigation or the parole violation hearing for parolees or as a modification to existing parole conditions.

**D.** When evaluating an offender’s suitability for intensive supervision, the Probation and Parole Officer should consider factors that might affect the offender’s ability to comply with the supervision requirements of intensive supervision.

Such factors include but are not limited to the offender’s residential status with offenders

living in isolated rural areas presenting real problems for the enhanced fieldwork and surveillance that is a part of intensive supervision. As well, offenders who are in need of electronic monitoring may have to have a telephone in their residence based on the type of monitoring equipment available or be able to initiate a telephone installation. Unusual employment schedules or locations may also be factors that can negatively affect an offender's ability to successfully complete such a program.

- E.** Meetings/interviews between Probation and Parole Officers and offenders will concentrate on case plan compliance, public safety, accountability of time and behavior, the employment and vocational/education needs of the offender and successful completion of the intensive supervision program.
- F.** Probation and Parole Officers assigned to intensive supervision programs will have a maximum active caseload of forty (40) offenders.
  - 1.** In order to assure that intensive supervision programs provide the most effective supervision, and provide equitable case assignment and caseload balance, an inactive category shall be used. Cases in this category will be considered active only for monthly report purposes but will not be considered when assigning cases.
  - 2.** The criteria for using the inactive status are:
    - a. Offenders who are in-patient and whose in-patient status is expected to exceed sixty (60) days.
    - b. Offenders living in another state.
    - c. Offenders who are in custody pending final disposition of probation violations.
    - d. Dead offenders for whom a death certificate is pending.
    - e. Other cases as deemed appropriate by the Probation and Parole Officer and supervisor, i.e., some discharges whose paperwork is taking too long to arrive.
- G.** A review and Re-assessment of the case plan should be completed every six (6) months or at a phase change in program status, whichever occurs first. A written summary of the case and any revision to the "Supervision Plan" should be made in the case update at this time. Relevant movement phase changes shall be made in supervision status. case update.
- H.** The District Supervisor will review and approve the assessment and reassessment for accuracy, appropriateness and compliance with Division policy and procedure.
- I.** Probation/Parole Officers will enter offender contacts into CMIS, according to Division policy and procedures, which shall be reviewed and audited by the intensive supervision supervisor on a regular basis.

Intensive supervision offender case records will be maintained according to Policy (*CD-050900*) **PPD Offender Case Records**.
- J.** Every intensive supervision offender will be informed orally and in writing that the minimum length of intensive supervision is six (6) months and the maximum is the full duration of

probation or parole. (In exceptional cases the Probation/Parole Officer with supervisory approval may accelerate an offender through the program). Standard participation in intensive supervision shall be no less than six months and the offender will sign conditions of probation and/or parole and phase conditions (Attachment A) with this clearly understood.

- K.** Refusal by an offender to comply with intensive supervision standards before the six (6) month minimum is met will be grounds for Probation and/or Parole revocation proceedings. Less than successful completion, even following the minimum six (6) months participation, are grounds for revocation.
- L.** Electronic and/or alcohol monitoring equipment (if available) will be used to enhance any imposed curfews and/or to monitor compliance with supervision conditions and/or the treatment/supervision plan during ISP.
- M.** Intensive supervision participation will be a “phase” process consisting of three (3) phases. Successful completion of one phase determines movement to the next phase.
  - 1. Phase I** – A minimum of two (2) months dependent upon the adjustment of the offender.
  - 2. Phase II** – A minimum of two (2) months, dependent upon the adjustment of the offender.
  - 3. Phase III** – A minimum of two (2) months dependent upon the adjustment of the offender. This is a transitional period.

Individual adjustment may vary, and Probation/Parole Officers may recommend movement within the phase structure or out of the Intensive Supervision Program.

Movement backward within the phases can be used as an intermediate sanction for minor violations and, in exceptional cases, accelerated movement forward through the phases may be used to reward offenders who are doing extraordinarily well for justified and documented reasons. If the early transfer of an offender is contemplated, the Probation and Parole Officer must first obtain the approval of the District Supervisor and then secure permission of the Court and/or Parole Board. The District Supervisor must approve any variation of the above outlined phases.

- N.** Each intensive supervision unit should supervise and monitor intensive supervision probation and parole offenders according to the following standards.

**Phase I:**

- 1.** A minimum of one (1) office visit per week, one (1) field call per week and two (2) collateral contacts per week will be conducted. This reporting schedule will last for a minimum of two (2) months.
- 2.** A total of thirty (30) hours (ten (10) hours per phase) of community service or community involvement will be performed during the term of supervision and as approved by the

Probation/Parole Officer. The community service requirement can only be waived with the approval of the Region Manager.

- 3.** A curfew of no later than 10:00 p.m. until 6:00 a.m. will be imposed on all Phase I offenders, unless permission is granted by the supervising Probation and Parole Officer. The supervising Probation and Parole Officer may modify the curfew as individual treatment and supervision plans require.
- 4.** All offenders will be required to obtain full-time employment within a thirty (30) day period, unless full-time vocational or educational training is undertaken. Offenders will provide verification of employment through paycheck stubs and/or telephone calls to the employer a minimum of once a month. If the offender is self-employed, the offender will be required to provide a business license initially, along with quarterly tax filing forms.
- 5.** All offenders will submit their person, residence and personal belongings, including automobiles, to search by Probation/Parole Officers upon request.
- 6.** All offenders will submit to drug screens at the request of the supervising Probation and Parole Officers, and samples will be collected a minimum of once a month. If an offender tests positive on the drug screen, the offender will be required to submit to additional drug testing.
- 7.** All offenders will refrain from the use of, sale, or distribution of any drugs in any form. Exceptions are drugs prescribed by a physician. Offenders are not to buy, possess or consume intoxicating beverages at any time and will not, at any time, enter a bar or lounge where alcoholic beverages are served or sold for consumption or other establishments whose primary business is the sale of liquor (i.e., a liquor store).
- 8.** All offenders will attend and successfully complete counseling as ordered by the Court, Parole Board or as recommended by their supervising Probation/Parole Officer. The Probation/Parole Officers will collect proof of participation in counseling a minimum of once a month until the officer receives proof of a satisfactory completion. The information will be documented and updated in programming in CMIS.
- 9.** Any restitution to the victim ordered by the Court or mandated by the Adult Parole Board will be paid on a schedule to be determined by the Probation/Parole Officer. A restitution plan will be established and submitted to the Court or Adult Parole Board and documented in COPS.
- 10.** All offenders will obey the lawful and reasonable demands of the supervising Probation/Parole Officer; and
- 11.** All offenders will immediately report any contacts with local, state or federal law enforcement authorities, including traffic citations and/or arrest.
- 12.** All offenders shall pay supervision fees as determined by their Probation and Parole

- 13.** All offenders will complete ten (10) hours of community service for each phase of ISP. Offenders will not be moved to a subsequent phase prior to receiving written verification of completed community service hours.

**Phase II:**

1. A minimum of one (1) office visit every two (2) weeks, one (1) field call every two (2) weeks and two (2) collateral contacts every two (2) weeks will be conducted. This reporting schedule will last for a minimum of two (2) months.
2. A minimum of ten (10) hours of community service must be completed in Phase II.
3. A curfew of no later than 10:30 p.m. until 6:00 a.m. will be imposed on all Phase II offenders unless written permission is otherwise granted by the supervising Probation/Parole Officer. The curfew may be modified by the supervising Probation/Parole Officer as individual treatment and supervision plans require, and
4. All other standards as outlined in Phase I will apply to offenders in Phase II.

**Phase III:**

1. A minimum of one (1) office visit every two (2) weeks, one (1) field contact every month and one (1) collateral contact every month will be conducted. This reporting schedule will last for a minimum of two (2) months.
2. A minimum of ten (10) hours of community service must be completed in Phase III.
3. A curfew of no later than 11:00 p.m. until 6:00 a.m. will be imposed on all Phase III offenders unless written permission is otherwise granted by the supervising Probation/Parole Officer. The curfew may be modified by the supervising Probation/Parole Officer as individual treatment and supervision plans require, and
4. All other standards as outlined in Phase I and Phase II will apply to offenders in Phase III.

Upon successful completion of Phase III, the offenders will be transferred to a standard probation and/or parole supervision caseload.
