AUDIT FINDINGS

NARRATIVE:

Prior to the audit interviews were conducted with the Acting Deputy Secretary of Administration, the Statewide PREA Coordinator and the head of investigators for the Department of Professional Standards, which is responsible for PREA investigations. These interviews indicated the Department is committed to complying with the PREA Federal Standards.

The PREA Audit of the Western New Mexico Correctional Facility (WNMCF) was conducted on April 27-30, 2015. (When referring to “the facility”, unless otherwise noted, this term is intended to reference Western New Mexico Correctional Facility). The Designated Auditor, Michael Klemke, was assisted by Michael Guzman, both being Certified PREA Auditors.

The audit team wishes to extend its appreciation to Warden Joseph Garcia, Deputy Warden Pete Perez and their staff for the professionalism, hospitality, and kindness they showed the audit team.

The audit team also wishes to compliment the New Mexico DOC PREA Coordinator, Jillian Shane for her outstanding work in organizing and assisting us with the requested information prior to and during the audit. This enabled the audit to move forward very efficiently. Warden Garcia and Cody Dunning, Facility PREA Compliance Manager, both did an outstanding job providing detailed information to the audit team prior to our arrival as well as during the on sight tour. They were highly organized and had a clear understanding of the requirements of each standard.

Following the Entrance Meeting, the audit team was given a very thorough tour of the Western New Mexico Correctional Facility to include the living units, program areas, visiting, Correctional Industries, kitchen, warehouse, intake area, training department and the tower. After the tour, the audit team began interviewing staff, reviewing files and observing processes.

At least one offender from each housing unit was interviewed. Those interviewed were randomly selected, by the auditors, from a list of all the inmates in the facility. In addition, inmates who were identified as being in a designated group (i.e. disabled, limited English speaking ability, LGBTI, or who had reported a sexual abuse, etc.) were also interviewed. The interviews indicate the inmates know what PREA is and how to report concerns.

At least 10, randomly selected, correctional officers and other identified specialized staff were interviewed, including the Warden, PREA Compliance
Manager, first responders, volunteers, health care providers, mental health professionals, HR, intake staff and the SANE coordinator for New Mexico Coalition of Sexual Assault Programs Inc.

The audit team was impressed by how knowledgeable the correctional officers and other staff were about PREA, offender rights regarding PREA, first response, and evidence collection. The vast majority of staff clearly understood PREA and the agency's commitment to it. Warden Garcia is committed to implementing and ensuring compliance with the PREA standards within his facility and it was very apparent to the audit team.

Health care and mental health staff that provide services to the inmates at WNMCF are very professional and knowledgeable with regard to their responsibilities when responding to PREA allegations and the protocols for follow up treatment.

When the on-site audit was completed, the audit team conducted an exit meeting with the facility executive team. The auditors gave a brief overview of the audit results and thanked the Western New Mexico Correctional Facility staff for their hard work and commitment to the Prison Rape Elimination Act. The audit team also made some recommendations to the PREA Compliance Manager and the Warden and offered any assistance needed in making improvements or changes.

It is apparent to the auditors that the facility staff are dedicated and committed to meeting the Federal PREA Standards, but also to the overall safety and security of the inmates, staff and visitors.
