NEW MEXICO CORRECTIONS DEPARTMENT

The Prison Rape Elimination Act (PREA) standard §115.88 requires the agency collect and review data in order to assess and improve the effectiveness of its sexual abuse prevention, detention, and response policies, practices, and training. The review is intended to:

- ✓ Identify problem areas, taking corrective action on an ongoing basis within all facilities under NMCD control
- ✓ Compare the current years data and the corrective action with those from previous years; and
- ✓ Assess the agency's progress in addressing sexual abuse within the facilities.

This report is intended to provide information for the calendar year 2018.

Alisha Tafoya Lucero
NMCD Cabinet Secretary

8/9/2019
Date

Robin M. Bruck
NMCD PREA Coordinator

8-9-19
Date

PURPOSE

The Prison Rape Elimination Act (PREA) was signed into Federal Law in September 2003. The purpose of the act was to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions, to provide information, resources, recommendations and funding to protect individuals from prison rape”. PREA also mandated the publication of standards to ensure compliance and improve detection and response strategies in addressing sexual abuse and assault. The final standards were published in the federal register on June 20, 2012 and became effective on August 20, 2012.

The PREA standards require annual audits of one-third of the facilities under an agency’s jurisdiction along with the Governor’s certification of statewide compliance in all facilities under the operational control of the state’s executive branch, including all private facilities operated on behalf of the executive branch to house offenders. A failure to comply with the standards will result in a loss of five percent of identified federal grant funding.

The New Mexico Corrections Department (NMCD) has implemented a written policy mandating zero tolerance towards all forms of sexual abuse, outlining the agency’s approach to preventing, detecting and responding to such conduct. NMCD is committed to PREA compliance while providing a sexually safe environment for all inmates in our care.

DEFINITIONS

The New Mexico Corrections Department is committed to the provision of safe and secure facilities for offenders and staff. We believe that as the custodians for offenders, the provision of an environment free from sexual violence and harassment is a core mission. We have a duty to provide clear expectations to inmates, staff, contractors, and volunteers to maintain sexual violent-free facilities. Moreover, and possibly most importantly, we have a duty to provide opportunities for inmates to serve their sentences in an environment that is free of violence and threats of sexual abuse while supporting opportunities for successful reintegration into the community.

The New Mexico Department of Corrections has a zero tolerance policy for all forms of sexual misconduct and harassment. For the purposes of defining sexual misconduct under PREA, the following definitions have been formalized by the agency:

- *Abuse:* The unlawful or unjustified use of force or other actions that jeopardize the physical or mental well being of an inmate.
- *Criminal Sexual Penetration:* The unlawful and intentional causing of a person to engage in sexual intercourse, cunnilingus, fellatio, or anal intercourse or the

causing of penetration, to any extent and with any object, of the genitalia or anal openings of another, whether or not there is an emission.

- *Criminal Sexual Contact:* The unlawful and intentional touching of or application of force, without consent, to the unclothed intimate parts of another who has reached his eighteenth birthday, or intentionally causing another who has reached his eighteenth birthday to touch one's intimate parts.
- *False Allegations:* Any false report or falsification during an investigation of sexual assault, sexual contact, sexual harassment or sexual misconduct. Knowingly making a false statement or knowingly swearing or affirming the truth of a false statement previously made.
- *Investigation:* The process of gathering, obtaining, collecting, compiling and reporting all evidence surrounding an alleged incident of sexual misconduct.
- *Offender:* An adult placed under, or made subject to, supervision, probation and/or parole, as the result of the commission of a criminal offense and released to the community under the jurisdiction of courts, paroling authorities, corrections, or other criminal justice agencies, and who is required to request transfer of supervision under the provisions of the Interstate Compact for Adult Offender Supervision.
- *Sexual Abuse:* Includes, but is not limited to, subjecting another person to any sexual act or contact between an employee, volunteer, contractor, or agency representative, and an inmate by force, persuasion, inducement or enticement; any criminal sexual penetration or contact (under NM Law; subjecting another person who is incapable of giving consent by reason of their custodial status, physical or mental state to sexual contact; or rape, sexual molestation, prostitution or other form of sexual exploitation).
- *Sexual Assault:* Includes, but is not limited to, subjecting another person to any sexual acts or contact between an employee, volunteer, contractor, or agency representative, and an inmate by force, persuasion, inducement, or enticement; any criminal sexual penetration or contact, (under New Mexico law; subjecting another person who is incapable of giving consent by reason of their custodial status, physical or mental state to sexual contact; or rape, sexual molestation, prostitution, or other form of sexual exploitation).
- *Sexual Coercion:* Compelling or inducing another person to engage in sexual activity by deceit, threats, force or intimidation or for personal favors.

- *Sexual Contact*: Behavior that includes, but is not limited to, all forms of sexual contact, intentional sexual touching or physical contact in a sexual manner, either directly or through clothing, of the genitalia, anus, groin, breasts, thighs or buttocks, with or without the consent of the person; or any touching or inappropriate viewing with intent to arouse, humiliate, harass, degrade, or gratify the sexual desire of any person. Sexual contact does not include searches of the person, to include strip searches.
- *Sexual Harassment*: Includes, but is not limited to, all of the following, whether by staff, volunteers, contractors, other agency representatives, or inmates: sexual advances; sexually offensive language, comments or gestures; influencing, promising or threatening any inmate's (or staffs') safety, custody status, privacy, housing, privileges, work or program status, in exchange for personal gain or favor of a sexual nature; creating or encouraging an atmosphere of intimidation, hostility or offensiveness as perceived by any individual who observes the sexually offensive behavior or language.
- *Sexual Misconduct*: Any behavior or act of a sexual nature directed towards an offender by another offender, a department employee, contractor, volunteer, visitor or department representative. This includes acts or attempt to commit acts including, but not limited to: criminal sexual penetration, sexual abuse, sexual harassment, and sexual contact, conduct of a sexual nature or implication, kissing, hugging, sexual gratification of any party, obscenity or unreasonable invasion of privacy by the act of observing, attempting to observe, or interfering in an offender's personal, intimate routines unrelated to the necessary performance of required job duties. Sexual misconduct also includes, but is not limited to: conversations or correspondence of a romantic or sexual nature between an offender and any department employee, contractor, volunteer, visitor, or department representative.
- *NPSAMFE*: National Protocol for Sexual Assault Medical Forensic Examinations Adult/Adolescent.

2018 Agency Accomplishments

- NMCD began organizing the first annual PREA Coordinator Conference, which was held in February of 2019. Members from Just Detention International, Department of Justice, the PREA Resource Center and PREA Coordinators from around the country were invited to attend. The conference was to include PREA Coordinators from the private facilities as well as the State facilities.
- In July, 2018, the PREA Coordinator's Office took on retaliation monitoring for all facilities within the state. NMCD exceeds the standard of retaliation monitoring, as all victims of sexual abuse, sexual assault and sexual harassment are closely monitored for any type of retaliation.
- Inmate education was enhanced with an updated PREA Education Video. The video is played for the inmates at intake, as well as played throughout the day on E-TV.
- NMCD designed and received inmate playing cards. Each card contains a PREA fact, including but not limited to the zero tolerance policy, how to report an allegation, and how to access victim advocacy.
- Three facilities, Roswell Correctional Center, Western New Mexico Correctional Facility and a private facility, Lea County Correctional Facility, underwent a PREA Audit and were found to be in compliance with the PREA standards.

FACILITY SPECIFIC DATA AND SUMMARY

Central New Mexico Correctional Facility (CNMCF)

Central New Mexico Correctional Facility (CNMCF), located in Los Lunas, New Mexico is one of six adult correctional facilities operated by the State of New Mexico Corrections Department. Built in 1980 as a 480-bed medium custody facility, it has grown to encompass a three unit complex housing up to 1300 inmates. The mission of the Central New Mexico Correctional Facility is "to protect the public, employees and offenders under the jurisdiction of the New Mexico Corrections Department by implementing sentences, programs and services under conditions of housing, monitoring and training, which will provide the protection in a cost effective manner".

The Main Unit, also known as the Level III, provides the vast majority of support, auxiliary and specialized services for the two sister units. The unit is now designed to

house a maximum of 678 Level III, IV, V and VI inmates in single and multi-occupancy cells/dorms. The design of the facility includes ten single cell housing units. These units have three pods in each unit with 16 cells per pod or forty-eight (48) inmates per unit for a total of 480 single cells. The main unit is broken down into one primary and four secondary missions. The primary mission is to serve as the Reception and Diagnostic Center for the Department (RDC), Mental Health Treatment Center (MHTC), Long Term Care Unit (LTCU) beds and dormitory style housing beds for geriatric inmates and the Diagnostic and Evaluation (D&E) Unit. There are a total of 63 buildings in the main unit which include four prison industry buildings, training, hospitality center, traffic control and garage.

Level II unit was originally designed to house 204 minimum custody inmates who have statutory restrictions that prevent them from being housed in less secure minimum custody facilities. In 2008 the design was restructured to accommodate 288 Level II inmates. The Level II is located on the same compound as the Main Unit, but has a separate perimeter. Over time the unit began to hold medical and mental health and other inmates that did not qualify by statute to be housed in other minimum custody units. The design of the facility includes six dormitories each accommodating 48 inmates.

Level I was originally built in 1939 and was commonly referred to as "The Farm." The unit is now considered a historical site. At one time the unit was self sufficient; inmates worked the land, grew vegetables and raised livestock. Level I houses a total of 336 unrestricted minimum custody inmates in the fifty-six (56) six man units. Inmates assigned to the Level I serve the New Mexico Highway Department, and other governmental agencies. A Forestry Crew consisting of four firefighting crews of 12 inmates each responded to fires in New Mexico. The facility also has a small work release program.

Guadalupe County Correctional Facility (GCCF)

The Guadalupe County Correctional Facility (GCCF) is located just off of South Highway 54, two miles southwest of Santa Rosa, New Mexico. Santa Rosa lies approximately 120 miles east of Albuquerque, New Mexico and 160 miles west of Amarillo, Texas. Santa Rosa is the county seat of Guadalupe County and has a population of approximately 2,700. The city is located on Historic Route 66. Guadalupe County Correctional Facility is operated by GEO Group Inc., a private, for profit, corporation headquartered in Boca Raton, Florida. The GEO Group Inc. operates over 100 correctional, detention and treatment facilities worldwide. GCCF is under contract with the State of New Mexico to house up to 601 State inmates with a security classification of Level III (medium custody). Under a separate contract GCCF houses up to 20 Guadalupe County detainees. The detainees are housed separately and kept out of sight and sound of the State population.

GCCF sits on 440 acres of land with 27 acres within the secure perimeter. Construction of GCCF began in 1997 and GCCF received its first inmates in January of 1999. The physical plant consist three buildings totaling 191,400 square feet. GCCF's design is very efficient in that inmate housing and nearly all support functions are located in one "main" building. The main building is situated in a north/south with a corridor running the length of the building. Inmate housing units and support functions are located on wings off of the main corridor. Remotely operated grills/gates in corridors provide for compartmentalization in the event of emergency situations.

Staff and visitors enter GCCF through a remotely controlled front gate. Immediately upon entering staff and visitors are required to undergo a search of their packages/bags and must clear a walk through metal detector. Upon clearing the metal detector and providing a photo identification, at the front control point, staff may enter the administration area. The administration area includes the Warden's office, personnel, mail, business office, records, and contract manager offices. After passing a second control point, staff has access to medical, segregation, supply/warehouse, laundry, food service, warehouse, visitation, medical, programs and housing units.

There are two general population housing units. Housing Unit One has one control center, five dayrooms, 120 double bunked cells split on two levels for a total of 240 beds, and 33 single cells for the segregation living area for a total of 273 beds. Housing Unit Two has one control center, five dayrooms, and 153 double bunked cells split on two levels for a total of 306 beds. Housing Unit three houses orientation inmates and consists of 11 single cells on one level for a maximum of 11 beds. Housing units are connected to the two service buildings by an activity unit. GCCF contains one gym, one commissary, two mental health offices, one therapeutic community activity room, one education resource center, eight case worker offices, one computer lab, and six standard classrooms.

GCCF has a large gymnasium. Outdoor recreation areas include a softball field, two basketball courts and four handball courts; there are ten cover individual recreation modules for segregation inmates.

The mission of GCCF is “to maintain a level of security such that the safety of the public is maintained as well as the safety of GCCF's employees and inmates. A system of order shall be initiated and perpetuated in such a manner as to produce an atmosphere conducive to efficient work, programming activities and services for all, and in an environment that provides for the rehabilitation of all inmates.”

Lea County Correctional Facility (LCCF)

Lea County Correctional Facility (LCCF) is a private prison that is owned and operated by the GEO Group, Inc. through agreement with the State of New Mexico. The facility is located on sixty acres of property that is owned by Lea County. Lea County has leased this land to the GEO Group for the purpose of operating the Lea County Correctional Facility. The facility is located approximately four miles outside of the city of Hobbs, New Mexico. The facility was constructed in 1997 and was occupied with its first inmates in 1998. The facility holds inmates who are committed to the custody of the New Mexico Department of Corrections.

The facility consists of a total of eight buildings within the secure perimeter. There are four housing units, each with five pods, a day room and cells for housing inmates, with usually two inmates in each cell. The facility also maintains a 42-cell restrictive housing unit when the use of segregation is necessary for inmate management. The design facility capacity is 1266 inmates. There is a multipurpose building housing the kitchen,

laundry, property room, academic and vocational school, medical and behavior health staff, supply room, caustics and toxic room, intake, library, chapel and visitation.

The facility buildings are connected by internal corridors allowing for access to all buildings without having to go outside. Entrance to the secure facility is done through a multipurpose building and access to the maintenance building is gained by exiting this same building. The maintenance area is a separate building from the remainder of the building, but is located in the secure perimeter. The facility has a large recreation yard which is used by inmates on a daily basis. The recreation yard is sufficient in size to allow for multiple large muscle activities at a single time by multiple inmates. There is also a large industries building that is current not being utilized. The Warden has plans to implement a wheelchair repair program in the near future utilizing this building with inmates doing the repairs.

The administrative building is located outside the secure compound and serves as a main entrance to the facility. The administrative building houses the Warden's office, Business Office, Personnel, Mail Room, Main Control Center, Roll Call Room and sally port into the compound. This building is adequate to meet the needs of staff that provide necessary support for facility operations.

The mission of the facility is as follows: "It is the mission of the Lea County Correctional Facility to maintain full compliance with the standards, Codes and Court Orders, which may be applicable to the care and custody of New Mexico Corrections Department inmates at the facility. The management and supervision of the inmates at the LEA County Correctional Facility is considered to be an integral part of the Criminal Justice System and the New Mexico Corrections Department. As such, it is the mission of Lea County Correctional Facility to manage the facility in a safe and secure manner, providing public safety through a continuum of custody, control, supervision, programs and services for inmates, with professionalism, progressive management and financial responsibility."

Northeastern New Mexico Detention Facility (NENMDF)

The Northeast New Mexico Detention Facility (NENMDF) is a 179,264 square foot private prison located on 70 acres. It is located 4 miles east of Clayton New Mexico, between State Highway 7 and State Highway 56/64. This level III state facility is owned by the town of Clayton and operated by the GEO Group, Inc.

Construction of NENMDF began in 2006, and NENMDF received its first inmates on August 4, 2008. The mission of the Northeast New Mexico Detention facility is to confine offenders in a safe, humane, and secure environment, to provide positive self-improvement opportunities for staff and inmates: and to establish and maintain a safe, supportive workplace for all employees.

NENMDF is comprised of two main buildings; the Administration Building which contains business support functions, NENMDF armory, NENMDF training room, Senior Administrative staff offices, conference room, inmate records room, video and phone monitoring room and the main control room. The Administration building is located outside the secure perimeter. The second building, which is located inside the secure perimeter, contains inmate housing and programming areas. Additionally it contains the intake area, the secondary control center, supply/warehouse, laundry, food service, warehouse, a staff dining hall, visitation, medical, unit management staff and offices, security and segregation.

NENMDF has one support building which houses the physical plant management team. Housing Unit One and Housing Unit two each have one control center. Each unit has five dayrooms, 146 double bunked general population cells split on two levels for a total of 292 (584 combined total). Housing Unit Three (segregation) has 41 single bunked cells split on two levels. Housing Units One and Two are connected to the two service buildings by an activity unit.

NENMDF contains one gym, one commissary, three mental health offices, and one residential drug and alcohol activity room, one education resource center, eight case worker offices, one computer lab, a facility chapel, six standard classrooms and three vocational classrooms.

Outdoor general population recreation areas consist of two basketball courts, four handball courts, and weight equipment. Segregation recreation consists of eight activities. These areas are covered in the event of inclement weather.

Northwest New Mexico Correctional Center (NMWCF)

Northwest New Mexico Correctional Center, located in Grants, New Mexico, is a privately owned and operated facility. On June 15, 1989, Northwest then New Mexico Woman's Correctional Center opened its doors to 149 female inmates who transferred from the New Mexico Corrections Department's Western New Mexico Correctional Facility, also in Grants. The designed capacity was 204 inmates. In 1994, the population had increased to over 250. To alleviate this situation, CCA submitted a proposal and received approval from the New Mexico Corrections Department to construct two additional minimum security housing units and an additional medium security unit (bringing the capacity to 322), as well as construction of a therapeutic unit for the treatment of drug and alcohol abuse offenders. Construction began in May 1995 and was completed in December 1995. In October 1999, a second expansion began and was completed in April 2000. With this expansion, approximately 57,303 square feet was added to the now existing 124,997 square footage. The 1999 expansion added a new Corrections Industries (standalone building); a new medical, dental, pharmaceutical, and medical administration area; along with 274 dormitory style housing units. An average of 704 inmates reside at NMWCF at any given time.

In July, 2016, a new contract was signed between CCA and the New Mexico Corrections Department which changed our mission from housing adult females, to now housing convicted adult males for the State of New Mexico. The new facility mission is to provide a pre-release preparation programming and substance abuse treatment to adult inmates with 24 months or less to serve. The facility name was changed to Northwest New Mexico Correctional Center, and the transition began in September 2016, with the moving out of the female population and moving in the male population.

Otero County Prison Facility (OCPF)

The Otero County Prison Facility (OCPF) is a maximum security prison operated by the Management & Training Corporation (MTC). The facility confines detainees for the U.S. Marshals Service, the US Department of the Army, US Air Force, Bureau of Prisons, Otero County, New Mexico, the City of Alamogordo, New Mexico, the Bureau of Indian Affairs, Immigration and Customs Enforcement, and provides for the custody and programming for inmates in the custody of the New Mexico Corrections Department.

The institution is located on a 12-15 acre site near the town of Chaparral, New Mexico, and approximately 27 miles north of El Paso, Texas. Original construction of the facility was in October, 2003, and had a bed capacity of 658. This has been increased over the years to the current capacity of 1420 beds.

The inmate housing consists of dormitory style housing units and special housing units (SHU) for both male and female inmates. The dorm units are 2 floor construction. Each dorm unit provides basic furnishings, shower facilities, and common TV areas. All showers and commodes at OCPF have panels, shower

curtains and screens to enhance privacy. The Special Housing Unit has 173 male cells and 7 female cells. The units are a mix of single and double cells. The cells have lav/commodos in the cell, the showers have doors and the SHU's have attached recreation spaces.

It is the mission of Management Training Corporation (MTC) to "Be a leader by: implementation of our plan to achieve high performance standards and goals; Maintaining a foundation based on integrity, accountability, and excellence; Providing long-term growth and stability while ensuring fiscal responsibility; creating opportunities through a positive environment for personal growth and development; empowering employees to implement innovative ideas for continuous improvement; Building esteem and pride by celebrating our diversity and accomplishments".

The Penitentiary of New Mexico (PNM)

PNM is located along the old turquoise Trail, 14 miles south of Santa Fe. PNM is the State's only super-max facility, housing the highest security classification of inmates in the State of New Mexico. The PNM Complex is comprised of three facilities housing male inmates in 1) MRU (previously Categorized as a minimum restricted unit); 2) South Special Management Unit (previously categorized as a close custody unit); and 3) North Special Management Unit for the highest security classification of offenders.

PNM maintains its national accreditation status from the American Correctional Association and reports that PNM continues to intensify its efforts to achieve the mission of the Corrections Department by providing a balanced system approach to corrections from incarceration to community-based supervision with training, education, programs and services that provide opportunities for inmates to transition within the Department and into the Community. The New Mexico Corrections Department's (NMCD) mission statement is "We commit to the safety and well-being of the people of New Mexico by doing the right thing, always." NMCD's credo is "CRED: Courage, Responsibility, Ethics and Dedication."

MRU was previously known as minimum restrict. Inmate's criminal background and record of institutional behavior indicate that the inmate can function in a dormitory setting without presenting a significant risk to the safety, security, and orderly operation of the institution. The inmate must not have a recent history of violent incidents or escape. The inmate has the ability to work outside the confines of the security perimeter, while under staff supervision without posing a risk of escape. The inmates assigned to MRU have less than four (4) years, until their projected release and are not serving a sentence for first-degree murder.

PNM South is a Special Management Unit. For placement at the South, institutional behavior indicates the inability to function in general population, as the inmate poses a threat to the safety of staff, inmates or to the security of the institution. The inmate requires separation from the general population with limited movement and activities. Some inmates in level IV are housed in single occupancy cells. Other Inmates may or may not be allowed to congregate with other inmates and inmates in this level have been identified for reintegration to a general population facility.

PNM North is a Special Management Unit. For placement at North, institutional behavior threatens the security of the institution, requiring separation from the general population. This behavior includes, but is not limited to, assaults, escapes, inciting riots and planning or participating in STG activities. The inmates are housed in single occupancy cells.

The PNM South and North facilities are designed similarly with three buildings (1,2, and 3). The Buildings are divided into A and B Units with alpha housing pods within each Unit. The inmates are housed in single cells with numerous accessible strip search enclosures in the pod. The Control Station is maintained on the second level with glass floors, windows with accessibility and visibility to the

Pods, and it contains the video monitoring equipment for ingress/egress, and the pod housing units.

The Supervisory staff and Program staff maintains their offices within each building. The North and South facilities function independently with separate Laundry Management, contracted Medical and Mental Health staff work in the Infirmary, a Gymnasium, Education Unit, Library, Chapel, Commissary, Visit Area, Property Area, Sally Port and Intake Area. Both North and South receive food services through a contractor, Summit Foods located in the Kitchen at the MRU facility. The MRU Facility consists of two housing units (A and B). The MRU facility is designed for dormitory housing and program access is within the confines of the Level II facility. Inmates assigned to MRU have the option for work line assignments on the grounds of PNM and outside the physical structure of MRU. The North and South facilities house approximately 288 inmates each and PNM's maximum total population is approximately 864 inmates.

Roswell Correctional Center (RCC)

The Roswell Correctional Center (RCC), located outside Hagerman, was established in 1978 as a Level I prison, but expanded to include Level II offenders in response to population growth rates. In 2004, NMCD's first DWI treatment unit was established at RCC and is capable of housing and providing treatment for up to 100 inmates. The officers and staff of RCC are committed to providing public safety by operating a professional corrections system that provides rehabilitative programs for successfully returning offenders to the community.

Southern New Mexico Correctional Facility (SNMCF)

The Southern New Mexico Correctional Facility (SNMCF) complex is located on the West Mesa near the City of Las Cruces. Las Cruces is the second largest city in New Mexico and is located approximately 40 miles North of El Paso, Texas. The SNMCF (Joe Silva Unit-JSU) Level III facility includes three different custody levels housing a total capacity of 480 inmates. This includes the Level III (General Population), Level IV (Close Custody) and the interim Level VI Restricted Housing Unit (RHU). The Level IV is Close Custody requiring increased staff supervision, small group controlled movement and intensive Security Threat Intelligence Unit (STIU) monitoring. The Paul Oliver Unit (POU) is a Level II facility which houses a total capacity of 288 inmates in an open dormitory setting. An inmate's criminal background and record of institutional behavior indicate that he may function in a dormitory setting without presenting a significant risk to the safety, security, and the orderly operation of the institution. Inmates housed at the POU must not have a recent history of violent incidents or escape. Inmates may also have the opportunity to work outside the confines of the security perimeter while under staff supervision. This includes details that are assigned to road/work crews that are supervised while in the local community. Supervisory staff and Program staff maintains their offices within each building and are both visible and accessible to the inmate population. Medical and Food Service departments are subcontracted and operated by private corporations.

SNMCF is accredited with the American Correctional Association (ACA) and continues to refine its overall processes through a series of internal audits with its GAR auditing instrument. This internal tool serves to audit all areas of the facility by utilizing a cross-section of Subject-Matter-Experts (SMEs) to examine compliance and operational readiness. The mission of the Corrections Department is to protect society by providing a balanced approach to corrections from incarceration to community-based supervision with training, education, programs and services that provide opportunities for inmates to transition from the department back into the community. The New Mexico Corrections Department's (NMCD) mission statement is "We commit to the safety and well-being of the people of New Mexico by doing the right thing, always." NMCD's credo is "CRED: Courage, Responsibility, Ethics and Dedication." NMCD/SNMCF accomplishes this by placing offenders in safe, secure facilities which are humane and commensurate with an inmate's security level. NMCD/SNMCF staffs are its greatest resource. Staff are highly motivated, well trained and committed to public service. It is staff's commitment to the

agency's core values and tradition of service that permeate throughout the ranks and ensures their success.

SNMCF is proud to report that on May 14, 2018 an ACA audit was conducted, and SNMCF has passed with a 99.7% out of 527 standards thanks to the hard work and dedication of all institution staff who made this happen. A special acknowledgement is extended to Jody Upshaw Compliance Officer, who was charged with overseeing the audit/accreditation process. Ms. Upshaw is the consummate professional and we are fortunate to have her on our team.

On April 25, 2018 Captain John Chavez had the opportunity and privileged to attend the Just Detention International (A human rights organization that seeks to end sexual violence in all forms of detention) regional training seminar which focused on expanding the understanding of roles and responsibilities. Captain Chavez brought back effective tools which the facility utilizes in training of staff. This has had a profound impact on how all staff relate to PREA.

SNMCF also welcomed our new Warden Mr. Daniel Peters who believes that training is essential and must be on-going so that staff clearly understands all policies and procedures, and actively demonstrates his support to eliminate sexual abuse, and sexual harassment.

Captain Chavez also attended the 1st National PREA Coordinators Conference in February 2019, hosted by NMCD PREA Coordinator Robin Bruck, and brought back a trove of information, tools, and learning activities which he has implemented into SNMCF in-service training. One training tool called The Yarn Exercise has had a significant impact on how staff responds to survivors reporting sexual abuse, and sexual harassment.

The facility is looking forward to this year's upcoming PREA challenges, goals, and accomplishments. All institution staff would like to take this opportunity to thank the NMCD PREA Coordinator for her tireless efforts, hard work and dedication to duty. Not only in regards to PREA but to all the Agency PREA Compliance Manager's. She is an asset to NMCD and she continues to serve as an effective role model for all staff.

Springer Correctional Center

The Springer Correctional Center (SCC) consists of 36 buildings on 40 acres and is located 2.5 miles west of the town of Springer, New Mexico on State highway 468. SCC began operations as an adult Level I and Level II facility with 25 offenders in 2007. Since then, the offender population at SCC has grown to over 400 offenders and has transitioned to a female exclusive facility.

SCC female inmates are offered similar treatment and academic opportunities that are available to male offenders. However, SCC offers programs that are trauma-informed and address women's gender-based needs. These include but are not limited to substance abuse treatment, educational programs employment skills development, and economic knowledge.

SCC female offenders are given therapeutic junctures that are compassionate and empathetic. They have successfully restored wheelchairs that have been sent to third world countries, and local families in need.

SCC offenders also grow crops in hoop houses; where they learn therapeutic skills by promoting self-reliance, creating opportunities for recreation, beautifying land, reducing family food budgets, conserving resources and producing nutritious food. The female inmates help the town of Springer by cleaning the cemetery, the rodeo grounds and the museum every year.

SCC seven self-help groups that raise money and give back to the communities in the surrounding areas such as Maxwell, Raton, Cimarron and Springer.

AGGREGATED DATA

During the calendar year of 2018, the NMCD PREA Coordinator tracked the allegations referred for investigations, for inmate on inmate and staff on inmate sexual abuse, sexual assault, sexual harassment and undue familiarity. In addition, the agency tracks sexual activity between inmates.

- In 2015, NMCD received a total of one hundred and seventy (170) referrals for investigation regarding inmate sexual activity, sexual abuse and sexual harassment, and undue familiarity. All cases referred were investigated by an investigator certified by Office of Professional Standards.
- In 2016, NMCD received a total of one hundred and ninety-seven (196) allegations. A number of new cases were brought forth which relate to a past case. For purposes of this report, those cases are listed as “Administratively Closed”.
- In 2017, NMCD received a total of three hundred and twelve (312) allegations. This number is significantly higher than previous years. There are several reasons behind the increase.
 - NMCD has instituted a PREA Database which has improved the tracking of these investigations.

- Sexual Activity between inmate and inmate has increase to nearly 70 percent higher than previous years. The increase is due to educating the officers on the signs of sexual activity between female populations.
- In 2018, NMCD received three hundred and twenty-nine (329) allegations. NMCD is beginning to see a drop in staff on inmate sexual harassment. Inmates were filing allegations in order to get an officer out of the Pod, as NMCD will move the officer until there is a conclusion of the investigation. NMCD added a charge of Making a false PREA allegation, which is a major charge. When a case is clearly unfounded, i.e. video footage, witness testimony, an inmate can be charged with making a false allegation.
